Our Europe seems having a very small economic recovery even if the percentage is done only with decimals . Nowadays therefore promote ideas that increase the sense of initiative and entrepreneurship, becomes strategic . The Project DIST , "Digital Storytelling for spreading and promoting entrepreneurship" , is born with the intent to awaken the "desire of enterprise". The DIST partners have made 60 interviews (15 per country) of entrepreneurs young, innovative and positive , who talk about their career paths , their stories , their successes but also the difficulties faced (and solved) , in their boot path of a company .

The activities envisaged in the DIST are proceeding briskly and each partner is fulfilling its duties in the proper way . The basic preliminary work has been concluded , and now the partners are working to produce the intellectual outputs foreseen in the Project.

Particularly they are producing a selection of 20 videos (5 per country) chosen from among the 60 videos produced , which have the most interesting contents and , starting from ones , a Storytelling Guide for training , , some further videos expressly conceived for using by the Vocational Education Trainers , e-training for internet courses , specifically designed for aspirant entrepreneurs and those entrepreneurs who want to awaken their desire for starting a company , or that simply require comparing with experiences from other countries .

In the month of June there was the first Mobility C1 at Arezzo (Italy) , where some trainers and researchers from each partner country , analyzed accurately all aspects of storytelling , during some very interesting courses. In the five days of the Mobility , were shown many videos and for the trainers / researchers participants , those days were also an opportunity to learn something about the beauty of arts of Arezzo and Tuscany .

In November there was the third kick off meeting , held in Arezzo in Italy , at the headquarters of the Italian partner Pratika , a very useful meeting to give a further boost to the DIST Project . ASEV , as Project leader governed perfectly the meeting , while Pratika hosted all the participants in a very comfortable way .

November : DIST kick off meeting - Arezzo (Italy)

June : DIST Mobility C1 – Arezzo (Italy)

NEXT STEPS

In the next months , will be produced the Enhanced full videos , the VET videos , the Guide Storytelling and the e-courses for training . The e-courses will be usable by aspirant entrepreneurs and by entrepreneurs and will be the hearth of the whole project. The e-courses will be based on the videos and on the Guide and will be available also after the end of the Project itself .
