With the month of September, it's started the last year of DIST project, which will end in September 2018, after the Final National Conferences in all the countries partner. The idea to promote the sense of initiative and entrepreneurship is finally a real action and the project to awaken the "desire of enterprise" through a digital storytelling have been realized. Now on the channel "you tube" dedicated, there are all the interviews of entrepreneurs young, innovative and positive taken from the countries partner, but also the thematic VET (Vocational Education Trainers) videos that can be used from many users, both entrepreneurs and aspirant entrepreneurs, teachers and learners, or simply curious.

Last month took place the last programmed Mobility and a group of Italian aspirant entrepreneurs and entrepreneurs, selected from CDi Manager, went in Spain at CECOT offices, and in several meetings they analyzed some aspects of storytelling, and attended interesting courses on different matters

Moments of the mobility in Spain at the headquarter of the Spanish partner CECOT

In the month of October there was the last transnational meeting, held in Lodz (Poland), at the headquarter of the Polish partner ULO . It was a meeting very effective to give the last boost to the DIST Project , perfectly governed by the Project leader , the Italian ASEV and comfortably hosted by the Polish partner . During the meeting , were processed all the last operational guidelines of the Project . There have been also some interesting talks regarding the management of the intellectual outputs to be used after the Project , because the use of the documents produced when the project is ended is one of the aims of DIST , for offering to entrepreneurs and aspirant entrepreneurs , to trainers and teachers in vocational schools , the availability of Educational Resources that can be used by everyone even beyond the end of the Project.

DIST 4^t translational meeting - Lodz (Poland)
